

# ITAI BENJAMIN

## ABOUT ME

As a Software Engineer student, I am dedicated to improving my skills through hands-on learning, solve real-world problems and gain practical experience. I am a well-organized and collaborative team player with strong communication and analytical abilities. With completed courses in Data Structures and Algorithms, Operating Systems, Databases, and more. Achieving an 82 average with higher grades in programming courses, I am confident in my ability to contribute to any team. I aspire to continuously grow as a professional and be a valuable asset to any organization.

## EDUCATION

**Bachelor of Science in Software Engineering - Student**  
**Braude College of Engineering**  
2020 - 2024

## SKILLS

- Problem Solving
- Logical Thinking
- Fast, effective self-learning.
- Team Player
- Communication

## PERSONAL PROJECTS

### Client-Server Shop management

In a School Project we developed a Java-based client-server application using the Object Client Server Framework (OCSF) and MySQL database to manage product stock, orders, user roles, and customer orders. (Java, OCSF, SQL, Client-Server, OOP)

### YouTube Downloader

As part of this personal project, I utilized the pytube and moviepy libraries in conjunction with customtkinter to develop a Python-based program. The program features a modern and intuitive user interface and allows users to easily download YouTube videos with ease. Through this project, I honed my skills in Python development and gained valuable experience in creating user-friendly applications.

## PROGRAMMING

- Python
- C
- Java
- SQL
- Javascript
- HTML , CSS

## ARMY SERVICE

### **Tank Commander and Platoon Sergeant**

2015 - 2019

I was responsible for the care and training of individual soldiers to become professional tank crew members. This included guiding and training other commanders, as well as maintaining a high degree of professionalism and instructional abilities. The position demanded strong motivational and self-management skills, as well as the ability to make decisions under stressful situations.
